About Us

Established in 1983, PCS is a celebrated Indian IT solutions provider, delivering cutting-edge and innovative solutions that are tailored for your business objectives. With a global presence in over 20 Offices, 30 Service Centers along with 200+ direct point of presence across India, we help you enhance business performance by leveraging proven processes and technology solutions.

Creating Business Value

PCS has decades of experience in delivering unparalleled customer delight through a distinctive business model. Our model functions on :

- **Unique Pro-Customer Approach**

Our client engagement transcends beyond business associations. We consider our clients as our partners, and offer flexible engagement models to create maximum value. Our teams work with you to understand your business goals and requirements, to help you cost-effectively streamline your operational efficiency and productivity, and achieve competitive edge.

At PCS, customer satisfaction is of utmost importance. Leveraging our culture of thought leadership and constructive ideation, we explore unique and novel solutions to ensure we exceed your expectations. A testimony to this is our wide clientele of prestigious Blue-chip and Fortune 500 companies.

- **Global Partnerships for NextGen Solutions**

We believe that two is better than one. This is why we establish long-lasting partnerships with the leaders in the field of technology to keep abreast of the evolving market dynamics and global trends.

Through symbiotic relationships, we ensure that our products and services are cutting-edge, aligned for the next generation market. We understand your challenges and work with you to deliver cost-effective and pragmatic solutions that meet not only your current requirements, but also your future objectives.

- **Quality Excellence**

We believe in achieving highest quality in all our operations and functions. To ensure superior quality in every parameter of our deliverables, we ensure that our business models surpass and create new global industry benchmarks.

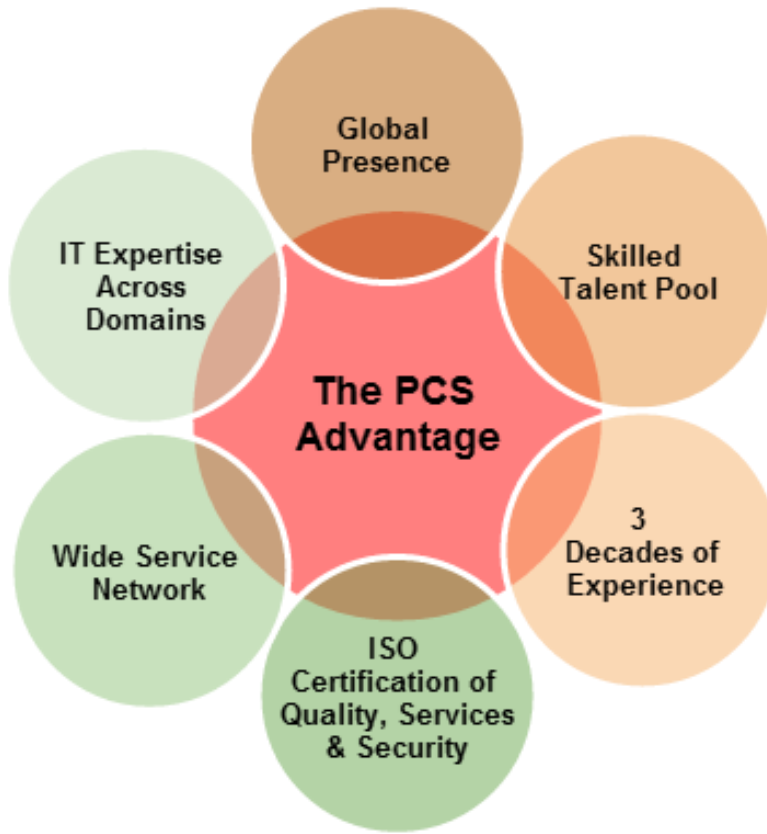

Our processes comply with international best practices such as ITIL (Information Technology Infrastructure Library). In addition, our operations have been ISO certified for excellence in quality, services and security:

- **ISO 20000-1** : IT Service Management
- **ISO 27001** : Information Security
- **ISO 9001:2008** : Quality Management Systems

- Excellence in Quality – ISO 9001:2008 Certified

Application Services

Organizations today are relying more and more on technology solutions to swiftly leverage opportunities, enter new markets, and attract, engage and retain customers.

PCS helps you transform your business for the NextGen with a comprehensive range of solutions:

Applications Development & Maintenance

As the technology landscape today is rapidly evolving, the need for innovative, business-specific and high-performance applications is ever increasing. In addition to that, device agnosticism, speedy deployment and cost-effectiveness are also critical.

At PCS, we employ domain expertise and novel approach to deliver operational excellence, enhanced performance, and significant cost savings. Through customized application development and maintenance, our skilled team helps you optimize your application investments, ensuring maximum value creation and competitive edge.

The PCS Advantage

- Customized Application Development & Maintenance
- Experienced Team with Domain Expertise
- Device Agnostic Application Development
- Performance Enhancements, Rapid Deployment, Cost Savings

Product Engineering Services

Amidst competitive business environments and complex regulatory landscapes, there is a constant need to meet increasing customer expectations and deliver seamless user experience. In the process of developing unique products, enterprises face challenges, such as managing budgets, assembling the right team and fulfilling the product roadmap.

As your strategic product development partner, PCS provides end-to-end support across the product lifecycle. Nascent stage of product development or product upgrade, our team is experienced in providing customized services.

Leveraging our expertise and superior methodologies in product engineering, we help you plan and execute your innovations successfully to help you gain a competitive edge.

The PCS Advantage

- Strategic Product Development Partner
- Extensive Product Engineering Expertise
- End-to-End Support Across Product Lifecycle
- On-Time, On-Budget Deliverables

Enterprise Services

In today's scenario, enterprises are witnessing a mounting pressure for providing business outcomes and optimizing costs.

PCS provides innovative solutions to help you create unmatched business value, while ensuring reduced operational costs. Our experienced team enables business transformation by leveraging our expertise in SAP and Microsoft enterprise platforms.

With a focus on value creation, efficiency and cost rationalization, we develop pragmatic, business-aligned solutions for BI/Analytics, Mobility, Rollouts, and Building Development and Test Centers of Excellence.

The PCS Advantage

- Business Transformation Partner
- Rich Expertise in SAP, Microsoft Enterprise Platforms
- Maximum Value Creation through Business-Aligned Solutions

Testing Services

Speed, precision and efficiency are the three most critical factors in determining the quality of business results. Businesses therefore face a challenge to streamline testing cycles, ensuring speedier deployment, without compromising on the efficiency.

At PCS, we help you become business-ready and achieve a vantage position over competition through robust testing services. We employ established testing methodologies, industry standard tools and best practices to ensure superior software quality and drive accelerated results.

The PCS Advantage

- Expertise in Business + Technical Aspects of Testing
- Established Testing Methodology
- Implementation of Industry Standard Tools and Best Practices
- Faster Time-to-Market, Accelerated Results

Portal & Mobility Services

As technology is becoming more pervasive, end-user demands for enhanced experience are growing.

PCS offers new-age web portal development and mobility solutions to help businesses provide unmatched user experience.

Web Portal Development

We provide custom-built solutions tailored to your business requirements. Our experienced team employs quality-driven best practices and result-oriented methodologies for streamlined web portal development.

Mobile Implementation

At PCS, we help you leverage the potential of mobile implementation through end-to-end, device-agnostic mobility services. Through industry standard tools and quality guidelines, we help you unlock emerging market potential.

The PCS Advantage

- End-to-End Web Portal Development & Mobile Implementation
- Rich Expertise in Futuristic Solutions
- Implementation of Industry Best Practices

Legacy Modernization

Businesses operating on legacy systems are plagued by lack of flexibility and agility, leading to decreased efficiency and productivity. Added to this are high cost of maintenance and unreliability.

PCS provides seamless legacy modernization services to transform your enterprise applications from cost centers to strategic assets. Our skilled and experienced team helps you migrate your legacy systems to modern platforms to ensure highly productive, cost-effective and responsive IT environment.

With our scalable and customized solutions, we help you be future-ready and gain competitive edge.

The PCS Advantage

- Experienced Team with Expertise Across Modern Platforms
- Seamless Migration & Modernization
- Scalable, Agile, Cost-Effective & Futuristic Solutions
